VAMSHI KRISHNA B

Java Full Stack Developer | Core Java | Spring Core | React.js | SQL

Bengaluru, Karnataka, India | +91 6363881723 | vishnuvamshikrishna@gmail.com | linkedin.com/in/bvamshikrishna6363

PROFESSIONAL SUMMARY

B.E. graduate (2026, CGPA 8.29) currently training as a Java Full Stack Developer at JSpiders, Bengaluru. Hands-on with Core Java (OOP, exception handling, multithreading) and responsive front-end development using React.js, JavaScript (ES6+), TypeScript, HTML5 and CSS3. Working knowledge of SQL/MySQL and Git. Seeking an entry-level Java Full Stack Developer or Software Developer role.

TECHNICAL SKILLS

Backend Development: Core Java, Spring Framework, Spring Core, Maven

Spring Core: IoC Container, Dependency Injection (Constructor, Setter), ApplicationContext, BeanFactory

Spring Beans: Bean Scopes, Bean Lifecycle, Component Scanning, Java-based and XML Configuration

Spring MVC: MVC Architecture, DispatcherServlet, @Controller, @RequestMapping, @GetMapping, @PostMapping, @PutMapping, @DeleteMapping, @PathVariable

Spring Annotations: @Component, @Autowired, @Qualifier, @Configuration, @Bean, @PostConstruct, @PreDestroy

Frontend Development: React.js, JavaScript (ES6+), TypeScript, HTML5, CSS3, React Hooks, React Router, Responsive Design

Programming Languages: Java, JavaScript, TypeScript

Database Management: SQL, MySQL, Joins, Subqueries

Tools and Version Control: Git, GitHub, VS Code, Eclipse IDE, Debugging

Core Concepts: Object-Oriented Programming (OOP), Collections Framework, Multithreading, Exception Handling

PROFESSIONAL TRAINING

Java Full Stack Development Trainee — Present

JSpiders, Bengaluru

- Training intensively in Core Java, Spring Core, SQL, MySQL, React.js, JavaScript (ES6+), TypeScript, and Git workflows.
- Applying dependency injection and bean configuration in Spring Core, and designing React components with Hooks.
- Practicing application debugging, code reviews, technical documentation, and collaborative development standards.

PROJECTS

Notification Service (Spring Core)

Java, Spring Core (IoC, DI), Maven, Git

- Built a console app using only Spring Core: NotificationService depends on a MessageSender interface (Email/SMS).
- Wired beans with @Configuration, @Bean and @ComponentScan with constructor and setter injection.
- Used @Component, @Autowired and @Qualifier to pick Email or SMS sender; also configured beans via XML.
- Demonstrated bean scopes (singleton, prototype) and lifecycle callbacks (@PostConstruct, @PreDestroy).

Employee Management System

Core Java, OOP, Git

- Developed a modular application with full CRUD operations for employee records, with input validation.
- Applied OOP principles to organize business logic into reusable classes; handled invalid input with exception handling.

One8 Website Clone

React.js, Vite, React Router, Axios, CSS3, Git/GitHub

- Recreated the One8 website as a responsive SPA using React and Vite, with client-side routing via React Router.
- Built reusable components with custom CSS (Flexbox, Media Queries); used Axios for data requests.

To-Do List Application

React.js, JavaScript, CSS3

- Built an interactive task manager supporting add, edit, delete, and mark-as-complete operations.
- Managed state with React Hooks (useState, useEffect) and designed a responsive interface with reusable components.

EDUCATION

Bachelor of Engineering (B.E.), Electronics and Telecommunication Engineering — 2022 – 2026

Dayananda Sagar College of Engineering, Bengaluru | CGPA: 8.29

Pre-University Course (PUC), PCMB — 2022

Sri Chaitanya PU College, Ballari | 80.6%

Secondary School — 2020

Nandi School, Ballari | 94.5%
